

ETHAN HOFFMAN

SINGER, SONGWRITER

BIOGRAPHY

From school stages at 12 to sold-out theaters a decade later, Ethan's life has revolved around live performance. Vocally and lyrically influenced by John Lennon, Allen Stone, Bob Marley, and Noah Kahan, he delivers soulful performances that blend humor, heart, and depth. Ethan is deeply inspired by themes such as consciousness and unity, and he believes music should awaken something real in people at the deepest level: a sense of childlike fearlessness that's never been lost, only waiting to be remembered. His songs encourage liberation and invite listeners to reconnect with the simplicity and wonder of being alive.

On stage, Ethan brings sincerity and wit, moving effortlessly between introspective originals and high-energy covers. Not only are you booking a vocalist, but you're inviting an experience that merges soul, awareness, and pure musical energy.
